

Self-Paced Building Surveying Qualifications

Sava has developed a new range of qualifications covering the major skills gaps for social landlords, focused on 'bricks and mortar' skills.

The qualifications are delivered online to provide flexibility, accessibility and to be cost effective. They are all self-paced so that individuals can go at their own speed. We currently offer a number of Level 4 awards which can be stacked into larger qualifications.

Stacking Awards into Certificates

Our Level 4 awards are each given a credit value. These awards can be stacked to build Level 4 certificates. For each certificate, learners must achieve a minimum of 13 credits comprised of:

- The mandatory awards for that certificate
AND
- Their choice of optional awards.

For example, if the mandatory awards for a certificate total 4 credits, the learner will need to complete any of our optional awards to the value of 9 credits, bringing the total value to 13 credits.

The Certificates

- Level 4 Certificate in Understanding Housing Construction
- Level 4 Certificate in Understanding Damp in Housing
- Level 4 Certificate in Understanding Hazards in Housing
- Level 4 Certificate in Understanding Services in Housing

Mandatory and optional awards for each certificate are outlined in this document.

Certificate in Understanding Housing Construction

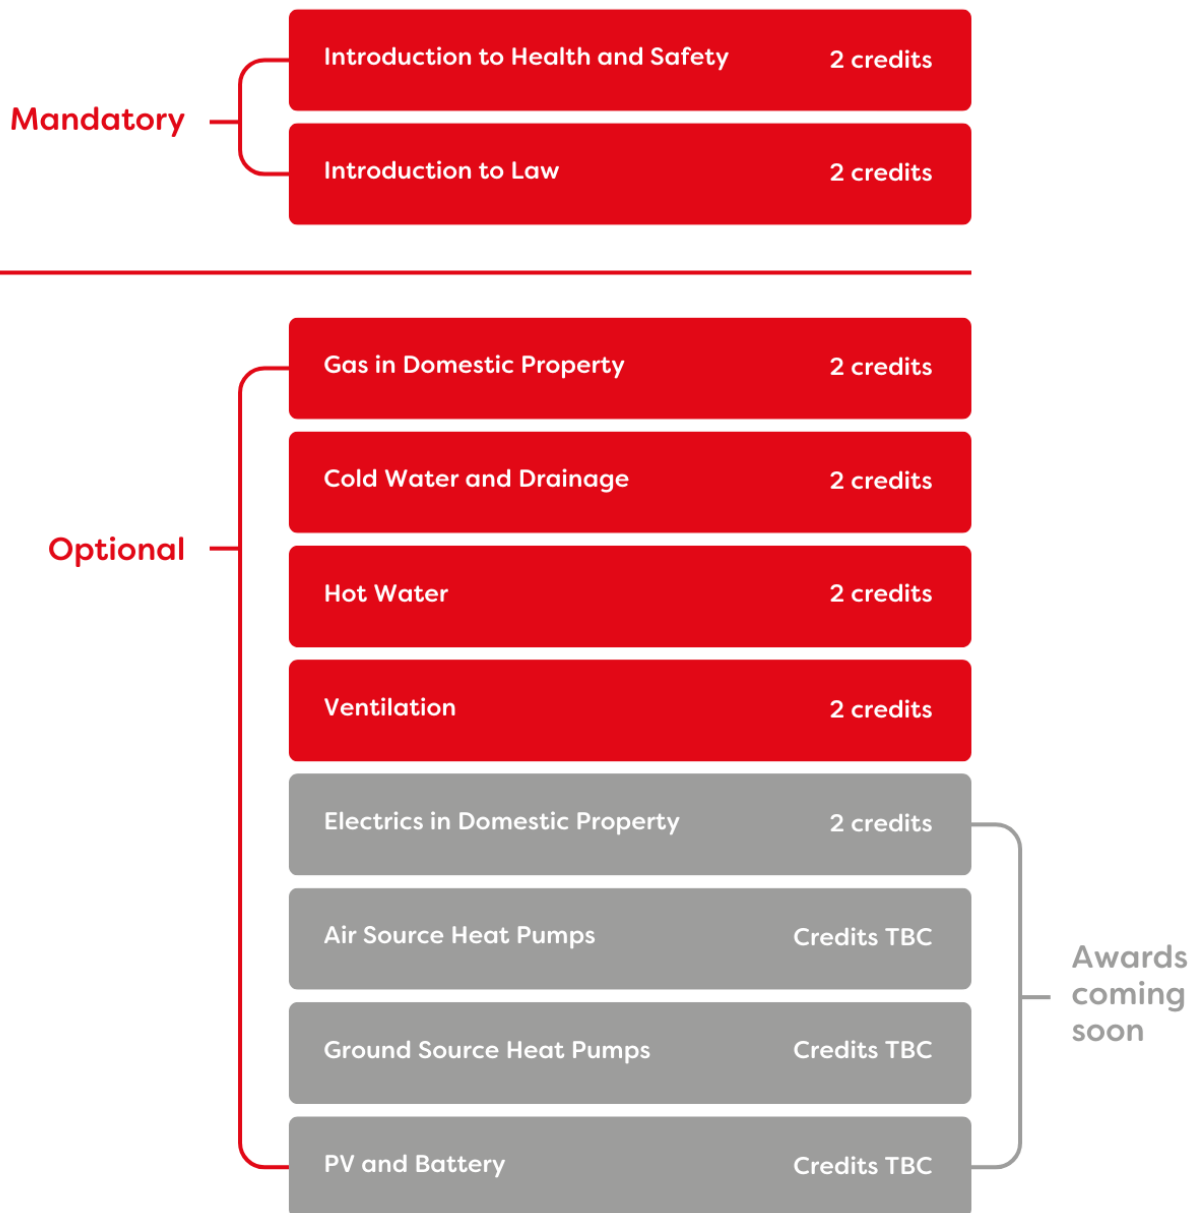

Certificate in Understanding Damp in Housing

Mandatory	Introduction to Health and Safety	2 credits
	Introduction to Law	2 credits
	Damp and Condensation	3 credits

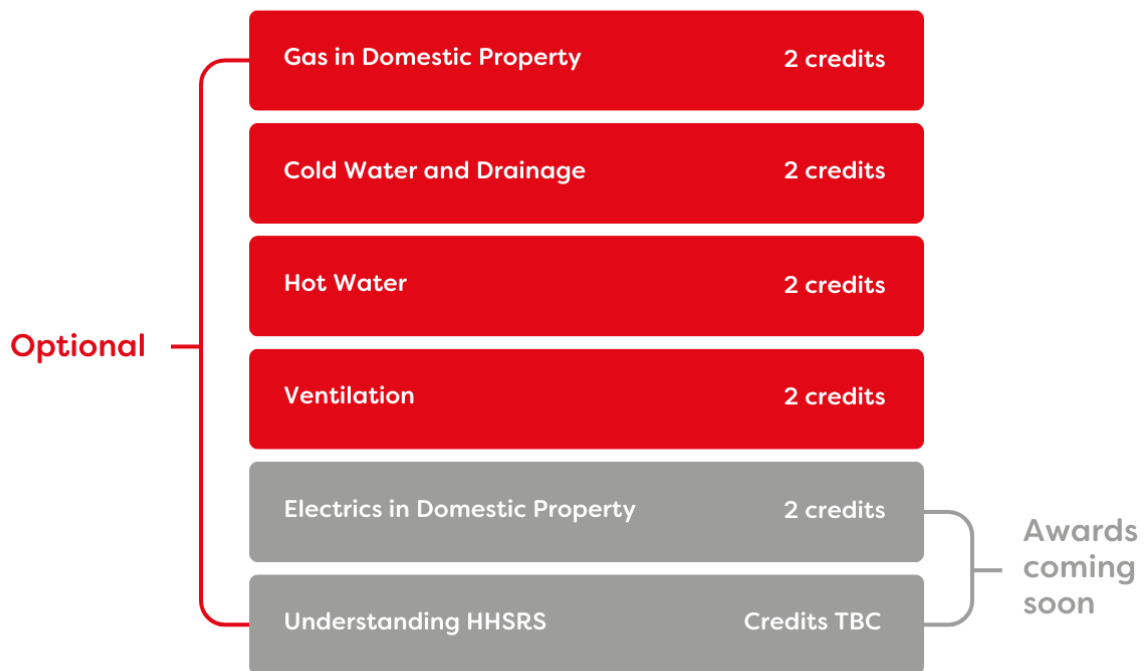

Optional	Cold Water and Drainage	2 credits
